NOTES: ms. 1-68 ♩ = 144. The tempo should be as closet to ♩ = 144 as possible,

but no faster. Due to the electronic nature of the original recording, an optional synthesizer bass part is included, but is not necessary for the success of the arrangement. Additionally, the Percussion 1 part may be performed by two players; one player on ride (suspended) cymbal and snare drum, the second player on bass drum, or one percussionist on a drumset. Another option would be to divide percussion 1 among three players with the third percussionist playing the ride (suspended) cymbal part separately from the snare drum part. Have an awesome performance!

PROGRAM NOTES: From the hit animated film, *The LEGO® Movie*, “Everything Is Awesome” is the infectious dance theme that is intertwined throughout the story of Emmet, an ordinary, “follow the rules” LEGO® character who becomes the key to saving the world from the evil President Business.
